BONKTM

**The Comedy
Game Show**

Jeopardy Meets The Three Stooges!

IT'S A SHOW... THAT HAPPENS TO BE A GAME!

Part General Knowledge, Part Physical Mayhem, ALL COMEDY!

Full Production Game Show Set: Combining every element that BONK offers, we create a full production BONK set, including backdrops, trussing, sound system, moving lighting, video screens, staging, and live automated cameras. Depending on your venue and event setup, our full game show set can span rooms from twenty feet to over fifty feet wide, and in the air from eight feet up to sixteen feet high.

Partial Game Show Set Options: When space is limited, we have different partial BONK sets that include many of the elements (as mentioned above) pieced together to maximize your specific setup based on the space you have available and the budget you have allocated.

The Mini Game Show: Give us contestants and an audience, and we will bring the show with the most important elements of all...the BONK helmets! This minimalistic option still has all the fun of the full show and can be done just about anywhere.

Compact/Trade Show Set: Delivering a flexible setup that allows the show to fit in a 10x10 space up to our full theatrical production set with either a two or three contestant option, BONK The "Customized" Comedy Game Show can play in almost any space. Flat screen monitors mounted on trussing enhance the visual impact by including your branding, logos, and images imbedded into the game show for a truly customized setup.

Sound Systems: We can provide different sound systems for different size venues and different size audiences. From a small show with just a few in attendance to a crowd of thousands, your audience will hear us loud and clear.

Video Screens & Flat Screen TVs: Large Rear Projection Video Screens and/or Flat Screen TVs enhance the show, with score keeping, graphic and visual displays, and beyond. The show is also interspersed with funny commercial sponsor parodies, such as the Amish Electricians Union, or your very own customized content.

Live Automated Cameras: Automatic cameras provide a live television studio feel for the contestants and the audience, which greatly enhances the production value. It's like having a 4-person camera crew working the show with close-ups, wide shots and automated score keeping.

Customized Show & Questions: If you have a specific message, information or product you need to get across, we can include your customized questions, content, images and more into the content of the show. Our professional writers provide the original comedy material and we will cleverly integrate yours.

Prizes: Win or Lose, everyone can receive funny consolation prizes, ranging from plastic chickens, bonk sashes, and moist towelettes, to real worthy prizes like a flat screen TV from sponsors, partners, your company or school and other comedy based prizes. The voice-over descriptions of these are as enthusiastic as if they'd won a new car!

LOOK for yourself & see... we provide the latest & most up-to-date BONK around!
From design, questions, software, & staging we have the newest modern style of BONK!
Besides, we're the ones who re-invented it!
